WEEK 1
2015**

WELCOME

YEAR 6 CAMP

Year 6 camp was AMAZING. Our students were incredibly well behaved and respectful and we could not be more proud of them. We experienced some amazing things and met some important people. Thanks to Kerry Bor, Sally Smith and Steve Hawkins for spending the week with us. We really appreciate your time and efforts during the camp. Thanks to Kate Riddle for being our amazing medic and ensuring all students were safe from allergens. Thanks to Kaylene Stait for being an amazing helper too.

It was a super busy week but a very rewarding one and we have heard nothing

but positive comments from the students. It was such a success that it has been already organized for 2016.

IMPORTANT DATES

24th April ANZAC Day service

**5th and 6th May Mothers Day
Stall**

25th May IMAX excursion

Homework

- Your child has a small research task in the first 2 weeks of the term.
- Students will be working on a large project this term on a Natural Disaster of their choice. Some time may need to be dedicated to research at home but the project itself will be done at school.
- Some students will be given a Get Out of Homework card this term which they can use at any time. This gives them the fortnight off homework however they will be still expected to read during the homework period.

Natural Disasters

Level 4 students will be learning about Natural Disasters this term. This is a very enjoyable unit and students are already asking lots of questions and engaging in discussions. We ask that students be attentive to news items

during this term as it is always something that tends to be apparent during the time of studying this topic. They should be encouraged to collect newspaper articles and bring them to school to share with the class.

One of our main discussion points will be about how we respond and the human side of disasters. We will look at past disasters and how people have assisted those in need.
